MIAMI BEACH (Reuter). President Nixon, for the third time in his career, was due last eight to accept the Republican Party's nomination as its presi-dential candidate and is already on his way to a landslide win in November, according to almost every delegate here. Beside him as he was to acknow-

edge his party's call was his own selected running mate, Vice-Presi-ient Spiro Agnew. It will be the same team that won in 1968.

In a prepared statement, Vice-President Agnew called on Amer-cans to vote for President Nixon "for re-election to maintain "one "America" instead of for forces who rould divide the country. In a speech accepting his party's nomi-nation to run for a second term as Vice-President, Mr. Agnew repeated-"y sounded the theme of "one Amer-ca" and "all Americans."

Delegates to the convention have already indicated the warmth of the reception which awaits the President with a wildly enthusiastic demonstration on Tuesday night after they n rad given him the nomination by 1.347 votes to one.

He was speaking yes-terday at a luncheon at the Israel Museum, Jerusalem, attended also by his host for the day, Mayor Teddy Kollek, and by Mr. Kol-lek's Arab affairs adviser, Mr. Yehoshua Paimon

Mr. Zorea said he "sympathized with the evacuated families of Bir'im and Tkrit," but claimed the issue had to be viewed from a broader perspective. HAIFA. — The port management last night reached agreement with the 120 port foremen on introducing an incentive pay system starting next Sunday. Following the agreement the foremen will this morning suspend their no-overtime sanctions, which they started a fortnight ago, to press their demand for incentive

Although the management declared the agreement would "in no way result in any change in the working methods or organization" of the port workers, the dockers' secretary, Yisrael Garber, told The Post that the men would "resist" the system,

"We were not consulted. The foremen's work is based on ours, and if their methods are changed so will ours, and to this we continue to object," he said. In April introduction of the system was folled because of the workers' resistance. The dockers fear that the change

for the foremen is only the thin edge of the wedge leading to a change of their work organization, which they have strenuously re-sisted. It is now possible that the agreement with the 120 foremen will ad to a new dispute in the port.

Spassky and Fischer French F.M. has draw in 17th game

REYKJAVIK (Reuter). - The 17th game of the world chess championships ended suddenly in a draw here last night and Bobby Fischer now needs only 212 points from seven games to become the first American to take the title.

Russian world champion Boris Spassky, with the white pieces, play-ed with more vigour than he had been showing previously, but the players agreed to a draw on the 15th move. Fischer now has 10 points and Spassky seven.

Fischer claimed a draw on an apparent Spassky blunder, invol-ving a three-time repetition of moves rule.

After Spassky's 45th move, only 20 minutes into the game, Fischer started and, leaning forward, scru-tinized the board. He beckoned to chief referee Lothar Schmid, who walked over and checked the scoresheet.

Killanin elected Olympic president

MUNICH (UPI). - The International Olympic Committee (LO.C.) yesterday elected Lord Michael Killanin president for the next eight years.

Killanin, a 58-year-old Irish nobleman, succeeds Avery Brundage who has held the post for the last 20 years.

For Count Jean de Beaumont, 68, of France, it was the second defeat in election for the presidency. Mr. Brundage was re-elected four years ago in Maxico.

Willie Daume, chairman of the Munich Games organizing committee, defeated four other candidates for the vacant vice-presidency.

Both Killanin and Beaumont are members of Brundage's nine-man executive. The outgoing president remains at his post until the end of the Munich Games.

After Brundage announced the choice of his successor to the press, Killanin told newsmen that the 86year-old Chicago millionaire has been elected an honorary life memper of the LO.C. Brundage then eturned to the microphone to say to the microphone to say Avery Brundage during a meeting that the LO.C. has also decided that on the Bhodesia issue. he ballots cast for each candidate vill not be announced.

ISRAEL GIVES NOTICE

 ΔT a special session of the Knesset, Israel gave notice today that it will not accept the head tax imposed by the Soviet Union on educated Jews wishing to emigrate. When Mrs. Meir was Israel's first ambassador to the Soviet Union in 1948 she had an opportunity to see and understand how deep was the desire of a part of Soviet Jewry to emigrate, and she clearly believes no less today in their right to do so.

The considerable number of people who have come here from the Soviet Union over the past 18 months have demonstrated that it is possible to leave and have whetted the desire of more Jews to go. They will not become more inclined to accept the

Soviet style of government when they see that this government can revert to such primitive measures as a head tax. If their departure is much delayed as a result of the new measure, the general ferment in Russia, which has become so marked during the past few years, will have more material on which to

have more material on which to feed, and they have proved that they are not easily intimidated. The plain speaking, often very loud, on the subject of Jewish emigration from the Soviet Union in the past few years proved to be useful, not harm-ful during this period. It would be an error if we were to return to the period of whispering to the period of whispering hopefully behind closed doors on any aspect of this emigration.

MARCH WITH FLAGS

ARCHBISHOP Raya's demonstration and sympathy march for the villagers of Birim

and Ikrit passed off quietly yesterday, under a forest of banners and slogans - many of them in English for the benefit of foreign photographers — and of waving flags. The demonstration is not

likely to cause the government to change its mind now, after so much careful consideration of all aspects of the problem in the recent past. The Archbishop modestly carried only his staff, instead of the cross he had planned to carry, or even the israel flag, which he

More practical than the Archbishop, Mr. Uri Avneri had hurried over from the Knesset's session on Soviet Jewry, to act as flag-bearer for the occasion, though he is little accustomed to waving Zionist flags. A DOOR TO CHINA By MOSHE BARTUR

Dramatic changes in the regional and global balance of power are taking place in the Far East. Japan's newly-elected Prime Minister, Kakue Tanaka, only had to emphasize his desire for a normalization of relations with Communist China, and his statement was immediately welcomed by Chou En-lai. A visit to Peking is now being arranged within the next few weeks, after the Prime Minister meets with President Nixon at the end of the month. Such a thaw in the longfrozen relationship is sudden and pronounced. Phenomena such as Chinese diplomats putting in an appearance for the first time ever at a Japanese reception in Geneva, highlight these developments.

Normalization of relations between the two major powers in Asia is of great significance for the Middle East Israel, while "European" in its high degree of economic inter-relationship and cultural background, is situated on the fringe of the Asian continent. Her relations — economic, social and cultural - with the countries of the Far East in general and Japan in particular are growing fast and are likely, at least in the economic sphere, to become more important.

A Chinese government geared to a rational policy of economic de-velopment could do well with Japanese capital goods provided in some form of economic and techno-logical assistance. Japan-China trade, notwithstanding the unfavourable political climate, in 1971 reached the \$1,000m. mark. And "militaristic" Japan has become China's main trading partner.

REPARATIONS In this context, the subject of reparations is worthy of mention. The Nationalist Chinese govern-ment's waiving of the right to reparations from Japan was con-sidered a most important advantage in the peace treaty with Chang Kaishek. The possibility always existed that Peking would raise its claim to reparations during the course of any negotiations. But, in the wake of Japan's tre-
